The Flexible Academic Programming Project

Professor Gregor Kennedy
Pro Vice-Chancellor (Educational Innovation)
The University of Melbourne

This presentation will provide an overview of a whole-of-University project currently being undertaken called Flexible Academic Programming. The drivers for the genesis of the project will be outlined and details about how the project has been organised within the University will be provided. The presentation will focus particularly on one of the eight workstreams of the project, and will consider in more detail how we currently structure curricula – and could potentially structure curricula – for the benefit of staff and students. Time will be given to a discussion of some of the challenges and opportunities faced by the University in its organisation of teaching, learning and assessment.

Gregor Kennedy is the Pro Vice-Chancellor (Educational Innovation) at the University of Melbourne and a Professor in the Melbourne Centre for the Study of Higher Education. In his PVC role Gregor leads the University’s strategy in curriculum innovation, and technology-enhanced teaching, learning and assessment. Gregor is an active researcher in the area of educational technology and higher education and has published widely in areas related to learning, student engagement, design, and analytics.

Wednesday 22 June 2016
12.30 - 1.30 pm, Seminar Room 515
Melbourne School of Population and Global Health
Level 5, 207 Bouverie Street, Carlton
