Inside knowledge on research ethics at the University of Melbourne

Professor Lynn Gillam, Chair
The University of Melbourne Central Human Research Ethics Committee (HREC) &
Ms Georgia Dempster, Ethics Adviser
Melbourne School of Population & Global Health

Savvy researchers know they must think about their ethics applications from the perspective of the reviewing committee. This seminar will provide insight into how ethics committees review applications. Some of the topics covered will include: the research ethics system (including the distinction between low-risk and project applications), the streamlined process for project applications, what MSPGH Human Ethics Advisory Group (HEAG) looks for, what delays ethics approval, accessing data and databanks and ethics applications for students.

New staff, early career researchers and research students (and their supervisors) are particularly encouraged to attend. There will be ample time for questions and discussion.

Professor Lynn Gillam (above left) is the Clinical Ethicist and Academic Director of the Children’s Bioethics Centre at the Royal Children’s Hospital and is a Professor in Health Ethics at the Centre for Health Equity, in the Melbourne School of Population and Global Health.

Ms Georgia Dempster (above right) is the Ethics Adviser for the Melbourne School of Population and Global Health and is also completing a PhD at the Centre for Health Equity.

Wednesday 6 July 2016
12.30 - 1.30 pm, Seminar Room 515
Melbourne School of Population and Global Health
Level 5, 207 Bouverie Street, Carlton
